

# Музыкальный web-сервис «SoundScape»

Выполнил студент гр. 09-132

Чирков Лев

Научный руководитель, канд. физ.-мат. наук, доцент, доцент КСАИТ

Шаймухаметов Р.Р.

Казань, 2024

## **Цель курсовой работы:**

Разработка музыкального web-сервиса «SoundScape»

## **Задачи:**

- Проанализировать различные музыкальные сервисы
- Создать удобный и понятный пользовательский интерфейс
- Разработать музыкальный web-сервис «SoundScape»

## **Недостатки современных web-сервисов для прослушивания музыки:**

- Частые прерывания рекламой
- Излишнее нагромождение
- Технические неполадки и нестабильная работа
- Низкое качество аудиозаписей
- Ограничение доступности треков
- Сложная навигация

Сервис «SoundScape» предоставляет пользователям следующие возможности:

- Поиск треков
- Прослушивание музыкальных композиций
- Удобное хранение музыки
- Возможность загрузки треков на платформу

## Основной стек используемых технологий:

- TypeScript, HTML, Tailwind
- React
- Next.js
- Supabase

Fix You

She wakes up

Rage and grace

Pulling me closer, pushing away

And me

The sharpest thorn on your vine

Twisting and turning

We're all intertwined

Broken wing

Empty glass

Words that scream and bounce right back

She says, you know

We'd all like to rearrange

I wish I could fix you

And make you how I want you

I wish I could fix you

And I wish you could fix me

**Для достижения поставленной цели было реализовано следующее:**

- Проведен анализ существующих приложений
- Разработан удобный пользовательский интерфейс
- Спроектировано и реализовано музыкальное web-приложение
- В приложение были добавлены различные дополнительные возможности

Спасибо за внимание!
